● ABOUT ME

I'm an enthusiastic, motivated and detail-oriented Front-end Developer. I have a solid technical base and understanding of the main processes. I've studied biophysics and biochemistry at university. I consolidated this knowledge and delved into Web Development at the Front-end Bootcamp.

However, what sets me apart is my ability to approach web development from a scientific and analytical standpoint. I am able to break down complex problems into smaller components and devise solutions based on evidence and data.

I am a fast learner, hard worker and team player, passionate about building first-class websites.

● SKILLS

- HTML
- CSS
- Bootstrap
- JavaScript (jQuery, ES6, AJAX)
- Version control (Git)
- React.js (Material.UI, Framer Moution)
- Node.js
- Responsive design and mobile-first method
- Understanding of cross-browser issues
- Basics of UX design
- Figma
- Communicative
- Non-confrontational

● EDUCATION

Dec 2022 - Mar 2023 / edX Skills Bootcamp

16 week intensive course in Front-end Development (Grade - 97/100)

2019 - 2020 / Taras Shevchenko National University of Kyiv

Master of Science - Biochemistry

Graduated with Honors (Grade - 94/100)

2015 - 2019 / Taras Shevchenko National University of Kyiv

Bachelor of Science - Biophysics

● EXPERIENCE

2017 - 2022 / Palladin Institute of Biochemistry of NAS of Ukraine. Department of Cell Signaling

Undergraduate Researcher

Analysed the endosome's composition and mechanisms of insertion by cancer cells and the influence of these processes on the rate of tumour growth and spread of metastases. Presented research results at scientific conferences.
